The HOUSE on the Cover

No. 9690—This beautiful contemporary split-level design will accommodate a very large family. The basic plan shows three bedrooms on the upper level and a very large family room on the lower level. However, an alternate plan, which is included with the drawings, shows three additional bedrooms on the lower level. The sunken patio offers a shaded place to relax while the sun deck provides an open sunny area. The popular country kitchen has a small breakfast bar and a large dining area which opens onto the colorful flagstone terrace through sliding glass doors. The basement area under the living room and kitchen will provide space for a recreation room or hobbies or can be omitted if desired. The garage is extra large, providing a large storage area at the rear.

Four complete plans \$39,
as shown or reversed, specifications, lumber and mill lists.
Additional sets \$4.00 each.
(One set, \$28.00; Two sets, \$33.00)

COMPLETE PLANS AVAILABLE

Complete working plans, specifications and mill lists are available for every design shown in any of the GARLINGHOUSE plan books. The plans are complete and ready for the builder to start construction of the home. The moderate price of these plan sets represents your best investment when building, since you know in advance what you are getting, thus avoiding misunderstanding.

THE PLANS, SPECIFICATIONS, LUMBER AND MILL LISTS as we have them made up for the designs in our books are sufficient and further details are not needed by any competent builder.

MINOR ALTERATIONS CAN BE MADE BY BUILDERS—It is impractical to change our tracings to show alterations, but minor alterations in design, material substitutions, etc., can be made by any competent builder without going to the expense of making special plans, which usually cost several times the price of our stock plans.

Complete plan sets when ordered will be mailed by parcel post (or air mail anywhere in U. S. if 75c per plan additional is included) within one day after your order has been received by The L. F. Garlinghouse Company.

TO OBTAIN COST ESTIMATES—The square footage is given for each plan to assist in figuring estimates. An estimate of what it will cost to erect any house illustrated in any of our books, in your locality, may be obtained by consulting your local builder.

ALL PLANS SENT ON MONEY BACK GUARANTEE—All Garlinghouse Plans are sent on a "Money Back If You're Not Satisfied" Guarantee. You have five full days after receiving the plans to study them over and to decide if they will serve your purpose. Plans which are not satisfactory may be returned for prompt exchange or refund.

ORDER YOUR PLANS THIS SIMPLE, EASY WAY!

USE THE HANDY ORDER BLANK ATTACHED! Or just send us your name and address with the plan number from the book and the number of sets you want along with your remittance and we'll have them in the mail within 24 hours after receipt of your order. Garlinghouse plans are complete and the house can be constructed from only one set of plans. However, in most cases, it is wise to include three or four extra sets in your order—one for the builder, a set for your city building department, a set or two for financing, if a loan is required, and of course, you will want a set for yourself to check on the construction as it progresses. Here's what you get:

PLANS—The complete working plans consist of prints of all four elevations, basement and all floor plans and details showing built-in features and intricate parts, all drawn to a scale of not less than one-fourth inch to one foot. Also, a plot plan in blank to be filled locally.

SPECIFICATIONS—The specification lists in detail (to be filled in by

you and your builder) the construction of the house from the excavation to the final decoration.

LUMBER AND MILL LISTS—The lumber and mill lists consist of an itemized list of lumber and mill materials needed to construct the building and state where each item should be used.

No. 9660—The predominant feature of this contemporary design is the beautiful cut stone fireplace chimney. The living room and family room both have wood burning fireplaces. The kitchen is conveniently located near all areas of the house. The master bedroom has two extra large closets and a private bath with shower. The large basement will provide plenty of recreational, storage and utility space. The outside stairway to the basement will be appreciated by the man of the house.

No. 9692—This four-unit, two-story, contemporary building features a split-foyer type entry. The living room level is down four steps from the entry and the bedrooms are up ten steps. Many construction economies are used while still providing features to attract renters. An exposed solid brick wall lies between each unit, providing an excellent sound barrier and adding an air of luxury to the interior. The living room, dining room and kitchen floors are vinyl tile over concrete. The bedroom floors are hardwood over wood joists. The roof framing consists of roof trusses for maximum economy. Sliding glass doors open from the dining room onto the sunken patio.

(One set, \$25.00; Two sets, \$30.00)

No. 7600—This house completely breaks with tradition in design and presents a fresh new appearance that is altogether striking and different. Not only the exterior styling but the interior plan is altogether quite contemporary. The gallery and foyer completely separate the bedroom area from the living room-kitchen-family room area. Many large closets are provided to eliminate any clothes storage problem. Skylights are strategically located in the roof to provide natural light wherever needed. The master bedroom has its own private bath and enclosed private patio.

No. 5451—The words which best describe this little ranch house are modern, new and attractive. The recessed front porch and large window areas are pleasing features. An excellent floor plan shows the rooms located to assure comfort and efficiency. The simple but effective lines of this design place it in the moderate cost bracket. The attached garage may be entered from the dining room or from the front porch. Plans show a full basement.

No. 7554—This four-bedroom, two-bath home will be economical to build due to its rectangular shape and simple roof lines. Wide roof overhangs protect the exterior from the weather and also shade the windows. A large basement is provided under all but the living room, dining room and garage. This basement area will be adequate for utilities and recreational space. The double garage is extra large to provide plenty of outside storage space.

HEATFORM

WARM AIR-CIRCULATING FIREPLACE UNIT

1. HEATFORM retains the beauty and glow of the open hearth, and provides two to three times more heat delivery into the home.
2. HEATFORM, built to furnace principles, with air heating chambers surrounding the firebox and throat, captures and circulates to all parts of the room and even into adjoining rooms, heat lost up the chimney by the old fashioned fireplace.

MODEL "A"
for single opening fireplace

3. HEATFORM is a complete unit, hearth to flue, built to proper angles and dimensions, preventing construction mistakes which sometimes cause smoke trouble.
4. HEATFORM consists of firebox, throat, smoke dome, and heat control damper, saving material and some labor necessary in the construction of the ordinary fireplace, which loses 80% to 90% of its heat up the chimney.
5. HEATFORM provides ample heat in case of emergency. If a power failure should occur, rendering gas and electrically operated heating systems useless, a HEATFORM fireplace will come to your rescue to make the living area of your home comfortable. Any type of fireplace fuel may be used.
6. HEATFORM is available in five models and various sizes for single and multiple opening fireplaces.

No. 9648—The distinguishing feature of this house is the second story penthouse which can serve as a studio, sun room, den, hobby room, etc. A door leads from the penthouse to the sundeck over the two-car garage. The first floor has an excellent floor plan providing a good traffic pattern and privacy for all rooms. The master bedroom includes two large closets and a private bath. A full basement provides space for utilities, storage, etc.

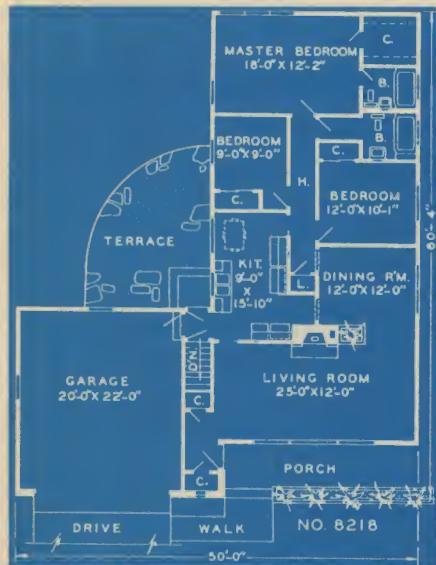

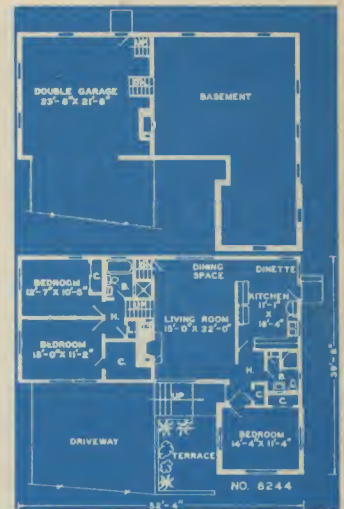

No. 8244—Here is a unique livable plan in the multi-level type of home. You will have ample room in the living quarters with large living room—dining space—dinette and kitchen. There are two bedrooms on upper level above the two car garage. The ground level bedroom could be used as an all purpose room or den. It is ideally located just off the terrace with windows on three sides. There is a full basement under the living quarters which provides plenty of storage and fine play room facilities for all.

No. 9668—The attractive conventional exterior of this Ranch design should assure a constant high resale value. An excellent floor plan is provided including a large family room. The family room size can be reduced or enlarged by changing the exterior wall next to the porch. This decision must be made prior to construction. An excellent kitchen arrangement provides both washer and dryer space as well as a large eating area. In order to keep costs down only one bathroom is included on the first floor, however, a bath with shower is shown in the basement.

No. 7556—This raised ranch or bi-level design contains many conveniences of modern living. The entrance foyer is at grade level and you go a half flight of stairs to either the main living level or the recreation room level. The main level contains three large bedrooms with two closets each. The master bedroom has its own private bath with shower. The main bath is extra large and contains a built-in towel cabinet and clothes hamper. The large kitchen is extra nice and contains an eating space, built-in range and oven and space for both washer and dryer. The lower level has a very large recreation room, a den or guest room and a full bath. Another bedroom could easily be added in the rear part of the recreation room, if needed.

To build without definite plans invites misunderstandings, possibility of costly mistakes and faulty, weak construction.

No. 7598—The popular split-foyer entry is featured in this raised ranch design. The house is rectangular in shape for maximum construction economy. The foundation is poured concrete and the rest of the house is frame construction. The brick trim on the front of the garage and the ornamental iron railings are little extras which could be omitted but certainly add to the exterior appearance. Grooved and flush plywood siding are combined on the front and cedar shingle siding is used on the sides and rear. The recreation room is well lighted by natural light. Two full baths are located on the main level and a half bath is combined with the laundry on the lower level.

No. 7552—Cathedral ceilings are specified in this compact contemporary design. This feature, plus the clerestory windows, tend to add an air of spaciousness to the entire interior. The kitchen contains adequate cabinets and a laundry niche large enough for both washer and dryer. The bath and a half are cleverly combined to provide maximum convenience. Notice how all of the plumbing except the kitchen sink backs up to one single wall. This provides minimum installation expense. Extra large closets are provided for all bedrooms and a coat closet and storage closet are located in the hall. The terrace is shielded from the street by an attractive wood fence.

THE PLANS, SPECIFICATIONS, LUMBER AND MILL LISTS as we have them made up for the designs in our books are sufficient and further details are not needed by any competent builder.

No. 6056—Here it is—a long, low and rambling ranch house that is certainly a beauty. The eye catching exterior is outstanding and when combined with the floor plan shown here gives the answer as to why the ranch house is so popular. Note the excellent window treatment, the clever use of a planter at the entrance, the large rooms and the modern kitchen with dining bar, and the other features too numerous to mention.

From the earliest times men have gathered around the open fire for warmth and fellowship, and even now we find no real substitute for the cheer of burning logs. In the firelight's glow we play and dream and work. The HEATFORM fireplace keeps the old-time open fire but also circulates heat like a furnace.

BEFORE YOU BUILD YOUR FIREPLACE Get This Valuable Book!

It contains all the vital information you will need to build a trouble-free, smoke-free fireplace that will capture and circulate into the room, and even adjoining rooms of your home, heat lost up the chimney of the old-fashioned fireplace. Book also contains 82 beautiful fireplace designs selected from National Prizewinning Contest. Hundreds of thousands of homeowners are now enjoying the 2 to 3 times more greater heat delivery from their HEATFORM fireplaces, and assuring themselves of adequate heat in the living areas of their homes in case a power failure, due to storm or accident, should render their gas- or electrically-operated heating systems useless. **ORDER YOUR BOOK TODAY . . . \$1.00**

The most satisfactory way of obtaining an accurate estimate of the cost of the house that you intend to build is to purchase a set of plans and have your material dealer or contractor figure directly from those plans. Then there is no error, which is often the case if approximations are made on a square-foot basis.

Select the design for your new home from a Garlinghouse Plan Book and send for the complete plans, specifications, lumber and mill lists. Secure them from your dealer, Loan Company, or The L. F. Garlinghouse Company, Inc., Topeka, Kansas.

THE PLANS, SPECIFICATIONS, LUMBER AND MILL LISTS as we have them made up for the designs in our books are sufficient and further details are not needed by any competent builder.

In purchasing your construction plans from The L. F. Garlinghouse Co., Inc. you are dealing with America's pioneer plan service—one that has had 50 years of experience in designing homes which are lived in and enjoyed by more than 1,000,000 persons.

No. 7288—This compact design will be economical to construct. The interior arrangement is as modern as can be. The fireplace acts as a divider between the living room and hall as well as the entry and dining space. The three bedrooms have adequate closet space. The bathroom has two lavatories to speed up early morning traffic. The terrace is covered and is reached through sliding glass doors at the rear of the living room. A full basement is provided.

COMPLETE PLANS AVAILABLE

Garlinghouse plans are very complete, ready for your builder to begin construction immediately. They are drawn in accord with FHA and VA requirements, subject of course to local interpretations. The working drawings are liberally dimensioned. They contain drawings and notes designating the location and type of materials. With these plans, your builder can estimate accurately the cost of building the house in your

area, then of course use them for the actual construction of your home.

When you order the reverse of a plan you get the same quality of drawings that you get when ordering them as shown. The lettering and dimensions are not backwards. There is no chance for errors due to an upside down plan. Garlinghouse plans will save you money.

IT'S THE LOW COST, EASY WAY TO PLAN THE HOME YOU WANT

Takes the guesswork out of building. Garlinghouse Home Plans mean that you can see what your house will actually look like before it is built. BUILDERS TELL US THESE PLANS ARE THE MOST COMPLETE THEY HAVE EVER USED. Each set of Garlinghouse plans includes working drawings of: foundation or basement, wall sections, framing, details of kitchen cabinets, other built-ins, plot plan, complete lumber and mill lists, plus a 24 page Specification and Contract Form that PROTECTS YOU! Check your choice of Garlinghouse Home Plan Books on the coupon at right and order now. All orders shipped 24 hours after receipt.

A CUSTOM-BUILT HOME MEETS YOUR NEEDS, GIVES MORE SATISFACTION, ASSURES HIGHER RESALE VALUE

Why live in a house that was built by someone who doesn't even know you or your family . . . or who isn't even aware of your family's needs? A custom-built house is your answer to better living. It's the only sure way to get the house you want, the way you want it, and often at less cost than you'd usually pay for a run-of-the-mill house. A custom-built house means better living for your family and a better investment for your money. It's a better built house, which makes its resale value higher. Choose wisely . . . select from over 1000 custom building plans . . . all shown in detail in the new Garlinghouse Home Plan Books.
